Dewar Service Contract

A dewar service contract is designed to preserve your dewars and keep them in constant use replacing valves and burst discs before they fail. Our highly experienced engineers will inspect your dewar(s) and provide a full report on the current state of your dewar and ancillary equipment as well as suggesting any remedial works necessary to keep the system in a safe and efficient working order. A typical service contract will last 12 months.

What does it cover?

- Inspection of dewar and all valves for wear and damage
- Record any defects with recommendations for repair
- Repair anything that is considered dangerous (at an additional cost)
- Provide a written service report for the visit together with a priced proposal for any remedial work required.
- On-site technical support will be provided within 3 working days.

- Telephone support from 08.30 to 17.00 Monday to Thursday, 08:30 to 16:00 on Fridays.

Why do you need it?

- Will greatly reduce the risk of breakdown that could mean downtime and interruptions to your process
- If something does go wrong we can guarantee an emergency call out within 3 days at reduced rates.

Notes:

The equipment needs to be in use for the inspection to be carried out.

Tel: +44 (0)1235 815777

What we do:

Every year:

1. Perform visual inspection
2. Check its operating within safe limits
3. Check relief valves
4. Check all valves leak tight
5. Check burst disc
6. Check exhaust ports
7. Check pressure gauge

Every five years:

1. All as above, as well as:
2. Replace regulator
3. Replace Burst Disc
4. Replace relief valves
